

Scratch Midterm Study guide 2
2012

Know all the terms for each part of the interface screen.

Most projects start with what yellow script?

Where do you find the broadcast scripts? What color are they?

Sending message to other sprites. Broadcast?

What are the three options to make a new sprite?

Script and it's color, for using pen tool to stamp colored line designs?

Script and it's color for adding music

What format needed when exporting from GarageBand?

What the gradient tool looks like when painting in Scratch

Easiest way to copy a script from one sprite to another?

Know the quadrants and be able to plot the X and Y of a sprite.

How big is Scratch's stage? Scratch uses pixels not inches.

What does the purple say script do?

Know which numbers make a sprite point it to a certain direction...90, -90, etc.

What is a costume?

What blocks are conditional statements?

Know how to place a sprite in an exact location.

Know your block categories. See previous study guide on blog and it was handed out in class.
