

## WRITING AN ARTIST STATEMENT

**DESCRIBE** your art work. How did you get into this work? What are your favorite elements/principles of design within the art work? How did you feel when creating this art work?

**HOW DID YOU CREATE THE ART?** What was the process? What tools within the software did you use? What did you use the most?

**INTERPRET AND ANALYZE YOUR ART.** What meaning do you hope the viewer will think about? What did you learn when creating the art work? Are there patterns emerging in the art that you are doing this year?

**JUDGING.** Only positive thoughts here. Write as if you are an admiring peer. Say something you would like to work longer on. Compare the quality of the art and the use of elements/principles of design with the Phobia work of art you made earlier this year.

**FOCAL POINT.** Where is it within your work of art? What does your eye focus on the most?
